REGIONAL REGULATIONS

GENERAL RESTRICTIONS

Single barbless hook: must be used in all streams of Region 1, all year.

Bait ban: applies to all streams of Region 1, all year, with some important exceptions. Check the Tables.

Steelhead fishing: Your basic licence must be validated with a Steelhead Conservation Surcharge Stamp if you intend to fish for steelhead anywhere in B.C. In addition, a Steelhead Stamp is mandatory when fishing most Classified Waters regardless of the species being angled for. Please see page 7 for details. When you have caught and retained your daily quota of hatchery steelhead from any water, you must stop fishing that water for the remainder of that day.

REGIONAL DAILY CATCH QUOTAS

(See tables for exceptions)

Trout: 4, not more than

- 1 over 50 cm (2 hatchery steelhead over 50 cm allowed)
- 2 from streams (must be hatchery)

And you must release:

- All wild trout and wild steelhead from streams
- All char (includes Dolly Varden; see centre page Freshwater Fish of B.C.)

Note: There is no general minimum size limit for trout in lakes or hatchery origin trout in streams.

Kokanee: 5 (none from streams)

Bass: 4 (largemouth and smallmouth combined) none from Apr. 15 to June 15

White Sturgeon: CATCH AND RELEASE ONLY

Crayfish: 25 Yellow perch: 20

TABLE LEGEND

See the following tables for exceptions and additional regulations on specific waters.

- Stocked Lake or Stream (not all stocked lakes listed, see p. 85)
- cw Classified Waters Licence required to fish Class I or Class II waters, see p. 8
- * Including tributaries
- ★ Wheelchair Accessible
- Age Restricted Waters

POSSESSION QUOTAS

Possession quotas = 2 daily quotas

ANNUAL CATCH QUOTAS

Annual catch quota for all B.C.: 10 steelhead per licence year (only hatchery steelhead may be retained in B.C.)

DAILY & ANNUAL CATCH QUOTAS FOR SALMON

Please refer to the NOTICE on page 4 for Salmon Regulations.

WILD TROUT RELEASE ALL STREAMS REGULATION

Anglers note there is a region wide regulation requiring the release of all wild origin trout in streams. This regulation allows only hatchery origin trout in streams to be harvested, except where prohibited by water specific regulation. In Region 1, stream hatchery origin trout can be distinguished from wild origin trout by the presence of a healed scar in place of the adipose fin. Please note, this regulation does not apply to lakes. For more information please contact regional fisheries staff at (250) 751-3100.
